

THE LONGEST TANDEM BIKE EVER BUILT HAD 35 SEATS AND WAS ABOUT 67 FEET LONG!

ON A BICYCLE, YOU CAN TRAVEL **3 TIMES FASTER** THAN YOU CAN WALK, FOR THE SAME AMOUNT OF ENERGY

The first bike was invented in 1817 by German Baron Karl von Drais

There are roughly **ONE BILLION** bicycles in the world (about twice as many as motor vehicles)

When riding a bike, you should always wear a helmet. Helmets have been found to be **85% effective in preventing head injury**

A BICYCLE CAN STAY UPRIGHT WITHOUT A RIDER AS LONG AS IT'S TRAVELLING AT MORE THAN 8MPH!

The bicycle is the most efficient vehicle ever devised; a human on a bicycle is more efficient than a train, lorry, aeroplane, boat, car, motorcycle or jet pack.
